TRICARE Dental Program (TDP)

- **TDP came overseas in 1999**
- **Currently we are seeing increased usage of the TDP due to more demand for family member dental care, and less capacity in the military clinics to meet those treatment needs**
- **TDP Overseas benefits are better than the stateside benefits - patient cost shares are paid, amount over the maximum allowable charges are paid, 50% versus \$1500 paid for orthodontic benefit**

TRICARE TDP OCONUS

- **Providers who will file claims directly with the insurance company, UCCI, will be designated as Preferred Dentists**
- **The contract to do this took effect in Aug 2008. We are already trying to find providers who will file the claims directly with the insurance provider - UCCI**
- **Preferred Dentists will be so designated at the TDP web site - currently we have 130 listed “Preferred Dentists”**

TRICARE OCONUS Verified Dentists

- **A verified dentist is a dentist who has been visited by dental clinic personnel or SAIC representatives and they have had a TMA dental criteria sheet completed and on file**
- **They have had the claim filing proposition discussed with them, but they have elected to continue to have the patients pay for care at the time of service and then patients file the claim**
- **Verified dentists will be listed at the TAO web site, but not as “Preferred Dentists”**
